To staff, school council, parents and students of McGuire College

Firstly, I would like to thank Megan Michalaidis for her hard work, dedication and enthusiasm in stepping into the role of Acting Principal at the beginning of the term after the departure of Brad Moyle.

Over the last couple of weeks, expression of interest applications were sought for the position of Acting Principal of McGuire College for the interim period leading up to the implementation of the Shepparton Education Plan, and It gives me great pleasure to announce the appointment of Claire Kelly as Acting Principal. In a very strong field of candidates, the selection panel felt that she has the best set of skills, experience and personality to lead McGuire College.

Claire has previous principal experience both locally and interstate. She is a qualified speech pathologist who has worked with both migrant and indigenous communities. Most recently she has been an Education Improvement Leader for the North East Victoria region of Goulburn and she currently is the Professional Learning Communities Regional Manager of the North Eastern Victorian Region of Goulburn and Ovens Murray.

Claire is enthusiastic and excited about leading McGuire College now and into the changes expected as the Shepparton Education Plan is developed.

I know she will have the full support from staff, students and families to ensure McGuire is in the best possible position to cater for the educational needs of every student, both those who are here now and those of the near future.

I would now like to thank Megan again for agreeing to continue in the Acting Principal Position until Claire arrives, which is expected to be the 21st of May.

Regards,
Jill Clapperton
McGuire College School Council President
